

## REBUILT NEWSPAPER STACKER

Replacing your aging stackers or adding capacity for new commercial contracts need not cost a fortune. Stack-Tek rebuilt stackers bring you *like new* stacker performance, reliability and warranty. Each machine is equipped with the Stack-Tek Control (STC), a simple to use and fully supported stacker control system.

Our extensive rebuild includes:

**Standard on all machines:**

- Dismantle machine
- Sandblast frame/doors/covers
- New Powder-coat paint
- New bearings
- New belts
- New air cylinders
- New Pneumatic valves/solenoids
- New Chains
- New Cam followers
- New STC control system
- Any non-wear items (e.g. rollers, stacking carriage, shafts) that are worn or damaged are repaired or replaced
- 1-year warranty on all parts

**Options:**

- New count sensor
- New AC infeed motor/drive
- New Stepper drives and motors
- Light curtains

STACK-TEK Products are distributed exclusively by:

**Printing & Packaging Technologies, Inc.**
