

## STACKER PARTS & SUPPORT

### *Feeling abandoned by your stacker manufacturer?*

Stack-Tek will help! Now offering parts, upgrades and field service.

#### **Replacement parts for 300, 350, 400 and 500 Series stackers:**

New mechanical replacement parts are available. Electrical parts that are still manufactured will be stocked. Obsolete electrical parts are being replaced with modern alternatives, or completely retrofitted with new technology.

#### **Touch-Screen replacement:**

The STC-XX series of Stacker controllers from Stack-Tek completely replace the touch screen and card rack. Currently available for Quipp™ 300, 350 and 400 series stackers, with more models in development.

#### **Pneumatic upgrade kits:**

Complete SMC pneumatic upgrades are available. Pre-assembled panels make for fast installation. Kits include new Filter/Regulator/Lubricator, all solenoids, valves and optionally cylinders.

#### **Light Curtain upgrades:**

Improve the safety of your operation with a light curtain retrofit kit.

#### **Field Service:**

Experienced field service technician for on site trouble shooting, audits or training. Available on all stackers 300 series and up, and most wrappers. Reasonable rates.

STACK-TEK Products are distributed exclusively by:
